## **LONG SYNOPSIS**

The Phantom warrior is the origin story of the masked vigilante, Nemesis Knight. A new breed of superhero for a changing world. From young feral orphan to deadly crusader, balancing the equilibrium between good and evil.

The Phantom Warrior is iconically dressed in all black, wearing the Mask of Dionysus, given to her as a gift by The God of The Underworld, Hades. Her wild, curly, beautiful blonde hair waves in the wind as she rides her black horse named Zeus; armed with her trusted rifle and sidearm strapped to her leg, she ferociously and brutally takes on the vilest and most evil criminals 'Khaos County' has to offer.
